

IR Emitter

The IR Receiver is a plasma friendly device that fits onto a variety of wallplates, but is also small enough that it can be discreetly mounted elsewhere, such as in a PIR or speakers etc.

- Permits any IR-controllable device to be interfaced to a control system without any internal modification
- Attaches with self-adhesive pads (included)
- Includes 3 metre cable and 3.5mm plug
- Partially blocks IR window for reliability while still permitting direct control of the device
- Supports all IR remote control formats and receivers
- Neat and unobtrusive
