# New EDCOM 2000 Series Overhead Projectors

---

## Features

- Lightweight "space-age" plastics used in construction, to allow for easier carrying.
- Automatic locking mechanism on folding projection post.
- 24V 250W European-manufactured Tungsten-halogen lamp, strong luminosity and brightness, long life and constant colour temperature.
- Economy - High Bright Lamp Switch: By switching the lamp to economy stage, its life will be three times longer than normal.
- Safety Interlock: Automatic power shut-down when platen is opened.
- Objective Lens: Single element  $f = 300 / 320\text{mm}$
- Low noise turbo fan - silent ventilation system ensures quiet projector operation and maintains cool stage.
- 360° omnidirectional projection head.
- Lamp changer - ensures uninterrupted presentation if the main lamp burns out.

## Specifications

Projection	
Light Source:	24V / 250W – 260W European Halogen lamp
Working Stage:	255 x 255mm
Projection Angle:	Up to 60°
Objective Lens:	$f=300 / 320\text{mm}$ Single Element
Power Supply:	220/240V 50Hz
Power Cable:	Detachable, moulded plug
Weight:	10,2 kg

---

## Construction Details

- Plastic Projection Head
  - Heavy duty Aluminium and Plastic Post with Auto Lock Mechanism
  - Plastic Projection Top Cover
  - Solid Powder Coated Steel casing
-
